

To my patients,

As of June 17, I will no longer be seeing patients at Alliance OBGYN and will be moving my practice over to MSU Urology. It's been a long and fabulous relationship with the doctors and staff at Alliance the past 20 years. Joining MSU Urology will allow me to provide focused care for women with female pelvic floor disorders and help fulfill a passion of mine to teach this important and often neglected area to the next generation of pelvic floor surgeons. I will be joining a team of urologists including 2 female urologists having special interests in disorders of the female pelvic floor. MSU Urology is moving to a new location in May and will be located at 4660 Hagadorn Rd Suite 210 E. Lansing, MI 48823. The phone number to schedule appointments or ask questions is 517-355-4205.

Unfortunately, this means I will no longer be able to provide regular gynecologic wellness care such as your annual exams. My practice at MSU Urology will continue with the treatment of pelvic floor disorders including pelvic organ prolapse, urinary incontinence and fecal difficulties. Alliance has fabulous doctors and nurse practitioners more than happy to continue your regular gynecologic health care needs at either the East Lansing or Mason office.

Changing offices can certainly be a challenge for patients. New paperwork, electronic record transfer delays, new staff and office culture and parking issues to name a few. I sincerely apologize for any inconvenience this may create. I will be working with the staff at Alliance and MSU Urology to make this transition as smooth as possible. If you prefer to stay with the doctors at Alliance OBGYN, that will be perfectly fine, and you do not need to do a thing. However, if you would like to continue your care with me, please sign the release of records form at Alliance so the records can be transferred to:

I want to thank you all for the privilege of caring for you and your family over the past 28 years. I hope I have made as much of a difference in your life as you have made in mine.

Respectfully,

Todd Moyerbrailean
