

June 11, 2020

To all my patients:

It has been a privilege to be a part of your Health Care all these many years. I had hoped to still see many of you as I transitioned to an “as needed” employee at Alliance after a 3 month leave this past winter.

Life is what happens while you make other plans they say, and although I know I may be “wanted” at Alliance, with all the changes that have occurred related to the recent Pandemic, I am not really needed.

So, I will take this opportunity to move on and fully enjoy my retirement. You have all made my career as a Nurse Practitioner incredibly fulfilling. I will treasure all the wisdom, smiles, tears, and memories you have shared with me over the years.

Thank you,

Diane
