

COVID-19 Positive OB Patient Information

Our community is experiencing an increase in reported COVID-19 cases, especially within our OB patient population. Because we care about the health and safety of our patients, we strongly advise eligible patients to receive their COVID-19 vaccination and booster shots according to the recommended schedule.

Alliance OB patients diagnosed with or with symptoms of COVID-19 are advised to do the following:

1. You will need to complete a COVID-19 PCR test.

- Results of home tests or rapid tests will not be recognized by Sparrow.

2. Contact Alliance during normal business hours to speak with a nurse to discuss the following:

- Quarantine time
- Symptom management

Additional information on interventions safe in pregnancy are located by clicking this link.
