

Information regarding your appointment at Alliance

- Patients are allowed to not mask unless they have had a known or suspected exposure OR are experiencing any of the following symptoms:
 - Fever
 - Uncontrolled cough
 - New onset of shortness of breath
 - Loss of taste or smell
 - Unexplained muscle aches, sore throat, or severe headache

- Patients always have the option to wear a mask if they choose.

- Patients are allowed to bring one adult visitor. Please know if you must bring a child, we ask that they have an adult chaperone. We understand there may be instances where bringing an adult chaperone is not possible. For the safety of our patients, the children, and our staff, we ask that any infants/toddlers are restrained in a car seat or stroller.

- Patients will sign in at the front desk when arriving for an appointment.

- Patients are asked to notify the receptionist at the front desk when visiting the Sparrow lab in our East Lansing office.
